## THE ERIE RAILWAY WAR.

The Motion to Restrain Erie from Issuing More Shares.

CLOSE OF THE ARGUMENT.

### THE DECISION RESERVED.

Yesterday the argument in the United States Circuit Court, before Judge Biatchford, on the otion on the part of Heath and Raphael to restrain the Eric Railway Company and Jay Gould from issuing 30,000 shares of Eric stock, was re-

Mr. David Dudley Field, Mr. Beach and Mr. Sherman appeared on behalf of the Erie Railway Company, and Mr. Southmayd and Mr. Hoar, ex-Atterney General of the United States, represented the English shareholders.

ARGUMENT OF MR. DAVID DUDLEY PIRLD. Mr. Field submitted that the bill was one of an anomalous character. It was neither original nor supplemental. It referred to the allegations of an independent bill "as if the allegations of that bill of complaint were incorporated with this bill," but without quoting them, while its main purpose was with an order not yet entered in a third suit pending in this Court. The gravamen of the bill may be thus way Company have issued 30,000 new shares in s manner supposed to be not warranted by law; but the same had been recognized by the company and had passed into the hands of bona side holders for value, who were not parties to the suit. These Loan and Trust Company, but 30,000 other shares of good stock in the hands of the receiver have not en registered. They might have been registered had not the old certificates for which they were substituted been surrendered in order to obtain the registration of the 30,000 new shares. Therefore, as the new shares, though spu rious, had been registered and made good. the 30,000 good shares in the receiver's hands should be made bad and denied the privilege of registry. Such was the logic of the application, and such, substantially, the statement of facts on which it was made. It only asked a declaration that the 30,000 new shares were illegal and wrongful, and that "while the certificates remained in the hands of Jay Gould, and before the same were sold and dis posed of by him, were illegal and spurious," and then asked for an injunction against a registration Now, as the bill informed them that these shares had been sold and disposed of and the certificates had gone late the hands of numerous bona side pur chasers, the declaration would be a mere bruium fulmen, and the bill remained as a mere bill for an

injunction against registration. Counsel then submitted several points for the consideration of the Court. He contended that the bill could not be sustained in any of the positions i took. It should have been framed as a supplement to the original bill of fleath and others, now pending in this Court. It was not framed in that manner, nor was it framed for any independent purpose. It was merely auxiliary, and must fail if the two prior suits or proceedings nail. If the bill were properly framed as an independent proceeding it must fail, because this Court had no power over the internal affairs or State corporations, nor, indeed, any power, except as a court of equity. It had no power to determine who were or who were not corporators of the city of New York or corporators of the Bank of England. Its sole power was over the defendants as trustees in the management of their trust. It could not entertain a suit to determine whether the 30,000 shares of stock issued in December, 1870, were or were not lawfully issued. If the Court had power to determine the question of the legality of the issue of the 3,000 shares of new slock it should not do so upon the present bill, because the necessary attegations were wanting and the bill did not pray for such relief. Under this bill it would be impossible to order eltaer the 30,000 shares issued in December, 1870, and January, 1871, or those in the hands of Mr. Coleman to be withdrawn and cancelled. The necessary parties were wanting to the bill. Neither the holders of the 30,000 shares insued in suit affecting their rights, so neither can any injunction be issued having the like effect. If the Court could not interfere with the ownership or legality of the 30,000 shares it could not interfere with any incident of such ownership. The privilege of registration was too vague and evanscent to be the basis of a bill in equity. It was not a right, but a mere favor dependent entirely upon the joint consent of the managing body of the corporation and of the Stock Exchange. It could be given or withheld at pleasure by either of those bodies. The registration with a third party was a purely voluntary arrangement of the company might withdraw or change at its pleasu took. It should have been framed as a supplement to the original bill of Heath and others, now pendone which the company might withdraw or change at its pleasure—and, therefore, one which a stockholder acquires no right either to enforce or restrain. Suppose the company had been in the habit of printing its certificates on yellow paper, and the Stock Exchange would deal in no other certificates than the yellow ones, would the stockholders have the right to require the company to use the yellow paper for all time to come? Considered as a precaution against over-issue, the company might take in or not as it pleased, and the Court could not control the exercise of its discretion in that respect. The thirty thousand new shares issued in December, 1870, and January, 1871, were a part of the capital stock of the company. This point the bill appeared to admit and then to deny; but whether it idmitted or denied the fact, the law made these shares a part of the capital stock. The company mad power under the tenth subdivision of the General failroad act of New York to issue convertible bonds for the completing, finishing or operating of user railroad. This boint had been adjudged in the supreme Court of New York to the case of Bellout vs. The Erre Company, 52 Barbour, 671, and Jenks vs. The New York Central Railroad, reserved to in the first named case. It was stated in the bill that convertible bonds upon which the stock had been issued were a mere sham and pretence, got up for the purpose of manufacturing and Issuing upon the pretended basis thereof, spurious and fracturent 30,000 new shares. The answer to the motion. The bill showed a resolution of the Board of Directors of the Eric company, passed in 1808, authorizing the Executive Committee to issue convertible bonds. Counseic entended that this was a continuing authority. The board was advised by counsel, and among others by counsel manufacturing the Executive Committee to an analytic leading and the general allegations of the Board of Directors of the Eric company, passed in 1808, authorizing the Executive Committee to issue convertible bonds. Then the same ali

so the Court that he thought he had shown sufficient, cogent reasons why the motion for an injunction should be refused.

Mr. Hoar closed the argument, on the whole case, on behalf of the English stockholders. He did not speak for more than ten or lifteen minutes, thus rehewing the Court, so far as he could, from listening to a discussion now become very duit and excessively tedious. The learned gentleman simply contented himself with a denial of the propositions contained in the argument of Mr. Field. He contented that, if the injunction prayed for in the bill in equity was not granted by the Court, Fisk, Gould and the Eric Railway Company would attain all the ends they desired to accomplish in connection with the management of the Eric Railway Company, and deprive the English shareholders of their just rights in the premises.

most with his denni patience and attention, then took the papers, which are of a voluminous character, and reserved his decision. The decision may be expected on or before the 25th his ant, as upon that date Erie may issue the shares in question if there be no legal interference with them.

THE AUTHORITY OF UNITED STATES DEPUTY MARBURS.

THE AUTHORITY OF UNITED STATES DEPUTY MARSome time since Marshal Sharpe sent one of his
deputies, named Patrick Farrell, to watch a canal
soat on the Jersey shore. The boat had oeen
libelled in the United States District Court for the
Southern district of New York. Farrell was arrested on a warrant issued by Justice creen, of
Jersey City, charging him with stealing the boat.
Counsel for Marshal Sharpe, having neard of the
matter, proceeded to Jersey City, and sued out
before Judge Nixon a writ of habeas corpus on behalf of Farrell, who was subsequently discharged, it
appearing to the Judge that the purisdiction of the
United States District Court for the Southern district of New York extended over the waters of the
Hadson to high water mark on the Jersey side, and
that, therefore, Justice Green had no authority,
under the circumstances, to interfere with a united
States officer in the place in question in the discharge of his duty, even assuming that the man
had been guesty of stealing.

### SUPREME COURT-CHAMBERS.

After an Increase of Alimony, Before Judge Cardozo.

Maria Gallinger vs. Simon Gallinger.—A mot was made to set aside the report of the referee on the ground of insufficient alimony being allowed the plaintiff, the same being \$7 a week. It was claimed that the defendant's income was several thousand dollars a year, and that he could afford to pay a much larger sum. For the defendant it was insisted that his income was only \$1,100 a year. After hearing the argument the Judge took the papers, reserving his decision.

# FINANCIAL AND COMMERCIAL.

THURSDAY, JULY 20-6 P. M. On 'Change to-day wheat was steady and rather more active. Cotton was firm and higher in sym pathy with an improvement in the Liverpool market.

MONEY TWO TO THREE PER CENT. Money was easy at two per cent on governments and at three per cent on stocks. Prime paper was steady and unchanged. Foreign exchange was heavy and actual business was on the basis of 110% for prime bankers' sixty-day sterling bills. The weekly statement of the Bank of England shows a

GOLD STEADY—112% A 112%.
The gold market was intesely dull, and, after opening at 112%, stood unchanged until precisely noon, when a sale occurred at 112%, the occasion of the advance being the moderately large amount of gold bid for at the Sub-Treasury—viz., \$2,100,000 at 112 a 112.53%. Subsequently, when the government awarded the entire million advertised to be sold instead of the fractional sum corresponding to the bond purchase on Wednesday, the price went of to 112%, but railied to 112%, only to go off again to 112%, when it was discovered that foreign exchange was so heavy and that a large proportion of the specie engaged for shipment to-day had been withdrawn at the last moment, the amount sent being \$40,000 only out of \$115,000 put up this morning. The course of the market is shown in the table:-

Strictly speaking the market was a little irregular, the five-twenties being strong and a shade better and the ten-forties and currency sixes a trifle lower, but the changes were not important. The following were the closing street prices this evening when the market had resumed its uniformity:-United States currency sixes, 113% a 114%; do., 1881, registered, 115½ a 115½; do. do., coupon, 115½ a 115½; do. five-twenties, registered, May and November, 113% a 114; do. do., 1862, coupon, do., 114% a 114%; do. do., 1864, do. do., 113% a 114; do. do., 1865, do. do., 113% a 114%; do. do., registered, January and July, 112% a 113%; do. do., 1865, coupon, do., 112% a 112%; do. do., 1867, do. do., 113 a 113%; do. do., 1868, do. do., 113% a 113%; do. ten-forties, registered, 112% a 113; do. do., coupon, 113 a 113%.

The Southern list was dull, the only activity noticeable during the day occurring in connection with a pressure to sell. The old North Carolinas went off to 44% and the special taxes to 20, thereby strengthening the new bonds to 27 1/2. Missouris and new South Carolinas were 1/4 a 1/4 per cent lower. The Tennessees were steady and the Georgias firm. THE NEW LOAN.

The depression on the Stock Exchange continued and prices again declined. Much discussion of the situation of the banks has been occasioned by the HERALD'S analysis of the last statement of these institutions, showing an expansion of loans to the extraordinary sum of \$301.000,000. An estimate pased on a knowledge of affairs in Wall street fixes the portion of this amount loaned on stocks and other Wall street collaterals to be not less than \$200,000,000, some say as much as \$250,000,000, In other words, the brokers and cliques owe the banks not less than \$200,000,000. One clique, whose members are leading officials in these banks, are holding between \$50,000,000 and \$75,000,000 of stocks. The cliques say the banks dare not call in their loans, because their failure would be the fauure of the banks. It is curious to speculate what will be the upshot of this very remarkable situation of affairs when next fall the country banks begin to draw on the city banks for the \$150,000,000 which the former have dehere during the summer months, and which the latter have loaned in turn to these cliques and fools. The diffusion of the knowledge of these facts has rendered the public still more cautious about dealing in stocks, and has completely robbed the market of its strength, a heavy feeling pervading all such shares as are believed to be in the hands of most marked in Northwestern common, which fell to 65%; in Rock Island, which sold at 105%, and in

### COTTON STORAGE.

The Cotton Exchange Looking for Good Warehousing Quarters.

embers of the New York Cotton Exchange have been for a long time trying to rid themselves of the annoyance to which they are at present subject by reason of the scattered storage of cotton in this city, and the cost and trouble attendant thereon. As the business is now conducted cotton is stored in different places here and in Brooklyn independently, and in the purchase, sale and transfer great delay and loss of property by cotton thieves is occasioned. The Exchange have, therefore, sought to have the cotton stored as nearly as possible in one locality; but sufficient and suitable accommodations have not been found hitherto. Messrs. J. S. Stranahan and J. W. Croxon (his son-in-law), of Brooklyn,

not been found hitherto. Messrs. J. S. Stranahan and J. W. Croxon (his son-in-law), of Brooklyn, who own extensive stores and dock property in the Atlantic Basin, have made an offer to the Exchange to store and handie all their property, to receive and ship the same according to order, and thus to relieve the individual members not only of a GREAT DEAL OF EXPENSE, loss of time, but also of insurance and unnecessary trouble. The Exchange, at a recent meeting, appointed a committee of twenty members to examine the stores and dock property and to report their opinion to the Board. Vesterday Messrs Harrison (President of the New York Cotton Exchange), Whitlock, Baldwin, Miller and others took the steamboat May Chiaton at the loot of Whitchail slip and salled around the stores, inside and outside of the Atlantic Basin, and also went in and out through the stores, and examined the docks and piers, &c., and considered all the accommodations which now or at any future time can be provided.

At present there are but five stores ready—the Clinton stores, 200x500 feet—and a dock and pier surface equal to 4,500 feet. But after the 1st of May next there will be a good deal more

STORE AND PIER ROOM

than this, for them May leases will expire. It is the intention of Messrs, Stranahan & Croxon, however, to build warehouses on two blocks, covering seven acres, which are now vacant, and the granite blocks are already on the ground for that purpose. Piers are also to be built fly feet or more out into the bay, so that in winter or summer there shall be no delay to saips coming right up to the stores with their report the arrangement will take effect immediately. The Exores will then be connected by telegraph with the Exchange, should adopt their report the arrangement will take effect immediately. The Exores will then be connected by telegraph with the Exchange, the sampling of cotton have been received at this port, and it is estimated that not less than one hundred thousand dollars' worth is lost, stolen or destroyed under the

### FATAL AFFRAY IN A SALOON.

Coroner Young yesterday afternoon received information that Charles Sangwenther, a German, thirty-five years of age, late of 524 Fifth street, had died in Bellevue Hospital from the effects of violence inflicted upon him by a man named Kagel, keeping a lager beer saloon in Fifty-third street, near Tenth avenue. It is stated that on the 21st uit, deceased and Kagel had a quarrel in the saloon, when the latter seized a heavy stool and struck Sangwenther, who was in his employ, a heavy blow on the head, fracturing his skull. Kagel, who lives in weehawken, was arrested at the time and liberated on ball by the magistrate before whom he was arraigned. The case will be investigated in a day or two, and in the meantime Kagel will be secured and locked up.
